

Dexter Coin Laundry's Success Stories

COIN LAUNDROMATS

Let G.C. Laundry give your laundry an "extreme makeover" and see the difference! Upgrade now... you WILL be amazed!

GOLDFIELDS LAUNDRY • Kalgoorlie

Owned by Mr Jeff Bloomfield

Could not be happier!

Australia's first ATM Card operated Laundry! Mr Jeff Bloomfield, owner of the Goldfields Laundry - "Wow, I could not be happier with the Dexter Equipment and the Card System. Not one breakdown". Jeff said because of the success he has had in such a remote area, it has given him the confidence to increase his Laundry's throughout Western Australia.

BLESSINGTON LAUNDRY • St Kilda

From strength to strength.

2 years ago the owner, Terry, purchased 16 Dexter T300 Coin Operated Washing Machines along with 14 Dexter Double Stack Clothes Dryers. This purchase was as a result of the original Dexter Machines in the laundry performing so well. The Laundry continues to go from strength to strength with increased takings and lower power bills. There is more exciting news to come on this laundry in the near future.

POWDER BLUE • Noosa & TEWANTAN ANGEL • St Kilda

Owned by Mr Albert Mobbs

Takings are up, gas bills are down.

Albert has added 12 Dexter's to his laundry's including a Dexter Maxi Wash 18kg capacity coin operated. This is a first in Queensland for Dexter. Once people use the 18kg and realise how much laundry they can wash in one load they never use another washer in his shop. Albert was amazed when his gas provider came to his Noosa Laundry to enquire why his gas usage had dropped by 40%. Albert simply showed him his new Double Stack Dexter Dryers. The takings had increased and his gas bill had dropped; Albert just laughed.

BOB EVANS WASH HOUSE • Byron Bay

Amazed at the reliability.

Bob Evans commenced using Dexter Coin Operated Washing Machines 4 years ago. "Today, we have in our Laundry, nothing BUT Dexter Machines. We could not believe how Dexter Machines could change our life:- • INCREASED TAKINGS • LOWER GAS BILLS • NO SERVICE CALLS. (When we analysed our books, there were no longer \$800 - \$1000 worth of service calls per month). Some clients drive over 40 minutes, just to use the Dexter Machines. We have ordered our first T750 (22kg) Coin Operated Express Washer to keep our Commercial Clients happy. Our Dexters operate flat-out, up to 12-hours a day, and we are amazed at the reliability. **Simply, Dexter Machines have changed our lives!**

In the 4 months since installing our T750 Express Washer, people are lined up to use this machine at \$18.00 per wash!
